and legally described as: \$22, T21 N, R01 W, TR 6 COS 1639 (hereafter the "Property"). (hereafter the "Property"). A water right is the right to use water, both surface and subsurface. In Montana, water rights are the rights to the use of water and not ownership of the water itself. Water rights are private property and may not automatically transfer with land. All water in Montana is property of the State of Montana for the use of the people of Montana. The actual ownership of water rights in Montana may not be known as many water rights are still the subject of a statewide adjudication process. The transfer of water rights is recorded with the Department of Natural Resources and Conservation in the State of Montana. The transfer of any right may or may not warrant that right until the adjudication process has been completed. BUYER'S ACKNOWLEDGMENT: The undersigned Buyer acknowledges and agrees that the brokerage firms, brokers and salespersons involved in the transaction anticipated by the Agreement set forth above do not warrant or make any representations either concerning the quantity or quality of any water rights or any legal entitlement to use of water including statements of claim, certificates of water right, permits to appropriate water, exempt existing rights, decreed basins or any ditches, ditch rights, or ditch easements appurtenant to or constituting a burden upon the Property (hereafter in this section referred to as "Water Rights"). The Buyer further acknowledges and agrees that any Water Rights affecting the Property may or may not have been fully or finally adjudicated and that Buyer has been advised to make this Agreement contingent upon and to such independent inspections, evaluations and advice concerning Water Rights and the adjudication process as Buyer might deem prudent. The Buyer is aware that the brokerage firms, brokers and salespersons involved in the transaction anticipated by the Agreement set forth above have not conducted an expert inspection or analysis of the Water Right
